

Project Description Component: Agricultural and Wetland Diversion Screening

Feature	Description	Notes
In the south Delta area additional screening will be funded and operation and maintenance provided as an addition to a Delta Screening Program.	Annually, an additional \$500,000 in 1999 dollars for the installation of new screens will be provided to implement the Delta Screening Program. Additional funding needed to properly operate and maintain those screens will also be provided. In addition, all agricultural diversions in Grant Line Canal will be screened.
