Subject : CALFED MOU for NEPA and CEQA

Attached is a draft MOU setting out the relationships of the state and federal agencies in the CALFED Bay-Delta Program. Please review it to see if it conforms to your agency's need and commitment.

Additionally, CALFED staff has suggested adding a subsection to each agency's responsibilities, listing the specific statutory authority that agency will exercise in this process. For example, the Fish and Wildlife Service will ensure compliance with the Endangered Species Act and the Fish and Wildlife Coordination Act. Staff suggested that each agency identify the applicable statutes for which each is responsible. Please consider this approach, and let me know whether you wish to include this additional information.

Call, fax, or mail any comments to me at the above numbers and address. Feel free also to talk to the CALFED Bay-Delta Program staff if you have questions or comments.
