## Memorandum

Date: November 1, 1995

To: Program Coordination Team

From: Steve Yaeger, Program Deputy Director   
CALFED Bay-Delta Program

Subject: Review Documents for the November 7, 1995 Program Coordination Team Meeting

Attached you will find three documents for your review. We would like to discuss these at the November 7th Program Coordination Team meeting and receive your formal comments according to the schedules discussed below. These documents are;

1. Plan of Action for Phase II of the Bay-Delta Program - covering preparation of the Tier 1 environmental document.
2. Report on the Impact of Toxics within the Estuary (initiated by UC Davis under contract with the former BDOC program but just recently completed).
3. List of Categories of Solution Actions and Actions. Descriptions of seventeen new categories.

Please pay special attention to the recommendation section of the Toxics Report. We want to be sure that any concerns that your agency may have over recommendations that apply to your area of responsibility are resolved before this report receives further distribution.

The Phase II Plan of Action will form the foundation for the scope of services which will be contained in the Request for Qualifications for consulting services to prepare the Tier 1 EIS/EIR. Should you wish modifications to this POA we would like to receive those by November 15th, as we plan to issue this RFQ soon.

Page two

Please review the Categories of Solution Actions package with the goal of providing verbal comments at the November 7 PCT meeting or, alternatively, written comments the following day, November 8. Once again, I apologize for the tight review period - which is dictated by the mailing date for the next workshop.
