

### Mission Statement

The mission of the CALFED Bay-Delta Program is to develop a long-term comprehensive plan that will <sup>serve to</sup> restore ecological health and improve water management for beneficial uses of the Bay-Delta System

### Solution Principles

- Affordable
- Equitable
- Implementable
- Durable
- Reduce Conflicts
- No Significant Redirected Impacts

### Water Quality

Provide good water quality for all beneficial uses

### Ecosystem Quality

Improve and increase aquatic and terrestrial habitats and improve ecological functions in the Bay-Delta to support sustainable populations of diverse and valuable plant and animal species

### Water Supply

Reduce the mismatch between Bay-Delta water supplies and current and projected beneficial uses dependent on the Bay-Delta system

### Vulnerability of Delta Functions

Reduce the risk to land use and associated economic activities, water supply, infrastructure, and the ecosystem from catastrophic breaching of Delta levees
