

Memorandum

Date: September 9, 1996

To: Program Coordination Team

From: Steve Yaeger, Deputy Director
 Judy Kelly, Deputy Director
 CALFED Bay-Delta Program 

Subject: Storage and Conveyance Refinement Process

Attached for your information is the initial draft paper prepared by the Storage and Conveyance Refinement Team describing a proposed process for refining that component. The content of this paper has been the subject of several team meetings and is presented for your consideration and comment. We plan to entertain a discussion of the proposed process at the September 11 PCT meeting.

The modeling assumptions which comprise pages seven through twenty have been discussed by the team and modified since they were presented at the August PCT meeting and consequently we would like to entertain another PCT discussion of the assumptions at Wednesday's meeting. We expect that modifications and refinements of the assumptions will continue throughout the component refinement and impact analysis portion of Phase II.
