

CALFED Program Coordination Meeting 2/11/97

Timeline/Efforts Associated With The Development of the CALFED Long-Term Program
Programmatic EIR/EIS Affected Environment and No Action Alternative

1. March 27, 1996 proposed approach for preparing affected environment/existing conditions description
2. May 20, 1996 discussion paper outlining the Program's proposed approach to developing the No Action Alternative and identifying projects for Cumulative Analysis.
3. July 1, 1996 workshop packet describing proposed affected environment/existing conditions resource categories and periods of time to be covered in describing the affected environment/existing conditions, projects in no action alternative and cumulative impact analysis and proposed operational criteria.
4. July 11, 1996 workshop presenting the information in the workshop packet.
5. September 27, 1996, transmittal and report dated September 18, 1997, presenting the detailed results of the no action alternative screening effort, adjustments to affected environment/existing conditions resource categories and time periods and responses to written and oral comments stemming from the July 1 workshop packet and the July 11 workshop.
***The agendas, information distributed at the meetings and minutes of items 6 to 8 are packaged in item 9.**
6. September 27, 1996 first workgroup meeting to discuss operational and regulatory assumptions for affected environment/existing conditions and no action alternative.
7. October 11, 1996 second workgroup meeting to discuss operational and regulatory assumptions for affected environment/existing conditions and no action alternative.
8. November 15, 1996 third workgroup meeting to discuss operational and regulatory assumptions for affected environment/existing conditions and no action alternative.
9. January 22, 1997, transmittal and report dated December 30, 1996, summing up results of the September 27 to November 15 meetings and a second report dated December 31, 1996, responding to comments received on the September 18, 1996 report.
10. Yet to come, a summary report for all efforts.

Items 6-9 have not been before the PCT but there has been active involvement in their development and review by each of the CALFED agencies except NMFS.
