**1) CalFed Phase II Needs**

- \* Program Direction
- \* EIR/EIS Documentation
- \* Review of Previous Efforts and Conclusions

**2) Fish Screen Criteria for Delta Facilities**

**3) North Delta Isolated Conveyance Facility**

- \* Design Assumptions
- \* Facility Options Considered
- \* Conceptual Facility
- \* Hydraulic Modeling
- \* Fishery Issues
- \* Feasibility Issues / Data Needs

**4) Central Delta Open Conveyance Facility**

- \* Hydraulic Conditions
- \* Conceptual Facility Options
- \* Fishery Issues
- \* Feasibility Issues / Data Needs

**5) CVP / SWP South Delta Fish Facilities**

- \* What does "Improvement" mean?
- \* Alternatives Considered
- \* Planned Tracy Improvements

**6) Addressing Feasibility Issues**

- \* Velocity Criteria for Delta Species (Fish Treadmill)
- \* Fish Pumping (Red Bluff Research Pumping Plant)
- \* Bypass Configuration
- \* Upstream Migration
- \* Hydraulic Control
- \* Fish Salvage / Handling
- \* Egg and Larval Fish Protection
- \* Predation Measures
