

## Memorandum

Date: August 6, 1997

To: Program Coordination Team

From: Steve Yaeger, *Steve Yaeger*  
Deputy Director

Subject: Delta Emergency Management Discussion Paper

Attached, for your review, is a draft paper describing the Programs' proposed approach towards emergency management to address disasters in the Delta. This plan will build upon existing guidelines and procedures as well as concurrent efforts underway at the Governor's Office of Emergency Services (OES), DWR's Division of Flood Management, and local agencies. The emergency management plan will identify pre-emergency measures and post disaster recovery measures. These measures will be integrated within existing emergency management systems and appropriate local, and regional emergency management agencies to protect Delta resources.

Your comments on the attached materials is being requested by August 25, 1997. If you have any questions or would like to participate on the emergency management sub-team, please contact Michael Norris at (916) 657-2666.
