

Generalized Phase 1 Flow Chart

Mission Statement Example

The mission of the CALFED Bay-Delta Program is to develop an integrated plan and implementation strategy to improve conditions in the San Francisco Bay–Delta Estuary. These efforts will reflect diverse public values and will improve certainty for those depending on the Bay-Delta system.

We, the people of California and the San Francisco Bay-Delta Region, believe the San Francisco Bay-Delta is an international treasure and that our ongoing stewardship is critical to its preservation, restoration and enhancement. Acknowledging the importance of the Estuary to our Environmental and economic well-being, we pledge to achieve and maintain an ecologically diverse and productive natural estuarine system. [Final CCMP]
