Subject: Comments on Action Categories and Actions

During the December 6, 1995 BDAC meeting, there was interest expressed in the members having a better understanding of each other's views and opinions with respect to the CALFED draft list of action categories and actions. It was suggested that information be collected from BDAC members and summarized to facilitate a discussion at the next BDAC meeting (February 15, 1996).

Attached please find a list of action categories and actions. Supporting descriptions are contained in Appendix B of the December 4, 1995 "Public Workshop Information Package" previously provided for the December 6, 1995 BDAC meeting. Upon reviewing the action category/action, please indicate your assessment of the level of importance of that item to a long-term solution by scoring 1 to 5, with 1 showing no importance, and 5 as highly important. Additionally, please indicate if you think it should be considered as a core action (i.e., an action so basic that it should appear in all alternatives and would likely be supported by all interests). Space has been provided on the last page for comments or description of additional actions not included on the list.

Please complete the form and return to the CALFED office by January 10, 1996. If you have any questions, please call at (916) 657-2666.

Note: Several conflicts have been identified with the March 15, 1996 date selected at the December meeting for a BDAC meeting. Staff is working to identify alternative dates.

Happy New Year!
