Date: February 2, 1996

To: BDAC Members

From: Lester A. Snow, Executive Director
CALFED Bay-Delta Program

Subject: Senate Bill 900

A major focus of the discussion for the BDAC informal educational session on February 14, 1996 is Senate Bill 900 (SB 900), sponsored by Senator Jim Costa. SB 900 would authorize the use of general obligation bonds for a number of water and wastewater-related issues across the State of California, some of which have relevance to the CALFED Bay-Delta Program.

SB 900 was introduced in early 1995, and has undergone several revisions since its introduction. Attached is the current text of SB 900, including revisions made through January 30, 1996. Also attached is a single page outline of SB 900 and a more detailed summary of the bill.

Additional revisions are most likely to be made after the date of this mailing and will be provided at the BDAC meeting.
