CALFED Bay-Delta Program

Subject: Draft Solution Principles

Attached is a draft paper describing the CALFED Bay-Delta Program Solution Principles. As outlined at several previous meetings, these Solution Principles will be applied during development of the alternatives to evaluate and provide an overall measure of acceptability.

In reviewing these Solution Principles, we are interested in discussing all of them, however, we are especially interested in obtaining advice on equity. What does equity mean to BDAC members? Have we defined equity correctly?

We will also discuss the process for further refinement of the draft alternatives.
