

<b>Alternative Narrowing Process</b> Chain-of-Lakes <b>Alternative 3F</b>	
<b>Chain-of Lakes (Alt 3F)</b>	<b>Large I.F. with in-Delta Storage (Alt 3E)</b>
Move intake from DCC to Hood and screen to 15,000 cfs ,Eliminate distributed screens	15,000 cfs screened intake at Hood
Gravity option: 825 TAF of storage, 174 to 200 TAF of operational storage	180 to 200 TAF of operational in-Delta storage
37,000 acres of impacted agricultural land, habitat and future habitat	18,728 acres impact land mostly agricultural
18,000 to 36,000 Ac-ft of additional evaporation loss	9,000 to 18,000 Ac-ft of additional evaporation loss
Could have TOC problems	Option to use canal or storage
Capital Cost: \$2,367	\$1,712
<b>Recommendation:</b> Alternative 3E adequately represents the alternative concept and alternative 3F be dropped from consideration.
