SUBJECT : Southern California Water Committee Position

Dear Lester:

Enclosed is a copy of the September 24, 1998 Telegram of the Southern California Water Committee setting forth its view on the CALFED Bay-Delta proposal for staging and implementation in the Phase II report. This is a short, clear statement of the SCWC prepared by Members who have been closely following the process and are concerned that the interests of the state's eight southern counties in the Delta solution are being ignored or overridden.

I would appreciate it if you would provide copies of this to the CALFED Policy Members and to the Bay-Delta Advisory Council.

Sincerely,

Stuart T. Pyle
