

Draft Programmatic EIS/EIR Request Form

The Draft Programmatic Environmental Impact Statement/Environmental Impact Report (Programmatic EIS/EIR) for the CALFED Bay-Delta Program is available for review and comment. The Programmatic EIS/EIR is a new, stand-alone document. If you have previously provided comments on the Draft EIS/EIR released in March 1998, please review the current document and provide new comments.

This report and supporting appendices are available in the following three formats:

1. **CALFED Bay-Delta Program Website:** <http://calfed.ca.gov> - The Programmatic EIS/EIR is posted on the CALFED website immediately following its release to the public. The website also offers a wide range of other documents released by CALFED since August 1996. Sections or pages of all these documents can be copied and pasted into any word processing application or e-mail, which makes reviewing and sharing the documents easier and faster.
2. **CD-ROM** - The CD-ROM is easy to use and indexed for easy navigation. The software required to view the documents is free and included with instructions on the CD. The search capability is one of the CD's most desirable features. If you enter a word such as "watershed", the "search" function will take you to every place "watershed" appears in the document. Portions or the complete document can be copied or printed from the CD.
3. **Printed Documents** - The Programmatic EIS/EIR and appendices are printed in 14 individual volumes totaling approximately 4,650 pages.

In order to obtain the CD or printed version, please fill out the request form below and return it to the CALFED Bay-Delta Program or access the form on the Internet at <http://calfed.ca.gov> and submit it electronically.

(300) **CD version** (contains all reports listed in box below right)

Printed version (Please indicate documents below)

Name: _____
(First) (Last)

Organization: _____
