

## Memorandum

Date: September 2, 1999

To: Bay-Delta Advisory Council

From: Lester A. Snow

Subject: Watershed Management

### Summary

The Watershed Work Group has been advising the CALFED Bay-Delta Program and BDAC on development of the CALFED Watershed Management Program, its plan and other related issues. At this meeting, the Work Group will formally report to BDAC on the work it has done over the last year. This report will include discussion with representatives of local watershed groups on issues that are of particular importance to their watersheds and the Bay-Delta. In addition, BDAC will have the opportunity to deliberate on a package of watershed related project proposals recommended for funding by the Ecosystem Roundtable.

Following this memo is a brief written report from the Work Group, a memo describing the process used to develop the watershed project funding package and descriptions of proposals recommended by CALFED Bay-Delta Program staff. The package will be considered by the Ecosystem Roundtable at its September 14 meeting. To provide further detail on the Watershed Work Group, meeting summaries from the Group's July and August meetings are provided in the "Work Group Meeting Summaries" section of this packet.
