MEMORANDUM

TO: LESTER SNOW
Executive Director
CALFED Bay-Delta Program

FAX NO.(916) 654-9780

FROM: THOMAS M. BERLINER *me/ab*
Utilities General Counsel

DATE: March 14, 1997

RE: IMPLEMENTATION: ASSESSING ASSURANCES FOR CASE STUDY

I have reviewed the chart prepared regarding the above. The Ag/Urban Assurances Work Team is analyzing this chart as well for purposes of providing input through the CALFED process. I have been requested to work on the ecosystem action item under the "Program Elements" column. What I would like to know is what functions are associated with the ecosystem actions. I would appreciate it if you could have somebody either call me or provide me with the written documentation which identifies the functions underlying this item.

My direct dial number is (415) 554-4295, and my fax number is (415) 554-9711. Please feel free to call if you have any questions, or if I should speak to somebody else at CALFED, please let me know.

T.M.B.
