

## Memorandum

Date: October 15, 1997  
To: BDAC Water Transfers Work Group Participants  
From: Mary Selkirk and Mike Heaton *Mary Selkirk*  
Subject: Work Group Meeting, October 22, 1997.

The upcoming meeting of the Water transfers Work Group will focus on identifying and defining the third party impacts associated with water transfers. Discussion will center around a series of case studies of actual transfers which will be presented by various members of the work group. We anticipate that discussion of these cases will help the work group begin to build a common definition of impacts as a step toward defining workable protections into a water transfers policy for CALFED.

Attached are the Meeting Agenda, the September Meeting Summary, written materials for two case studies, and a map of the meeting location.

Please note the new meeting location. We look forward to seeing you on the 22.
