

**M e m o r a n d u m**

**Date:** January 11, 1999  
**To:** BDAC Water Transfer Work Group  
**From:** Greg Young, Program Manager  
**Subject:** Postponement of BDAC Water Transfer Work Group Meeting

At the conclusion of the November 12, 1998 Water Transfer Work Group meeting, a next meeting was tentatively scheduled for late January 1999. **For reasons discussed below, this January BDAC Water Transfer Work Group meeting has been postponed indefinitely.**

During the last year and a half, the Work Group has been instrumental in helping develop the CALFED Program's water transfer framework including, identification of issues and constraints and development of potential solution options. Specifically, the Work Group has been particularly helpful in developing the concept of a water transfer information clearinghouse.

During 1999, the CALFED Program will be undertaking an intense effort to prepare the Program for implementation in the year 2000. At this time, CALFED is carefully reviewing its public input process to ensure that effective public input is taking place on the Program components most in need of stakeholder review and refinement. As part of this effort, CALFED staff will be re-configuring the BDAC work groups. As a result, the Water Transfer Work Group will be retired, and the Program will build upon its contributions. Stakeholder input on the Water Transfer Program will continue through special technical teams with pre-established objectives and timelines.

Again, we greatly appreciate your hard work. The Water Transfers Work Group can be proud of its accomplishments.
