

DRAFT

DRAFT

DRAFT

OUTLINE FOR WATERSHED PROGRAM PLAN
TO BE INCLUDED AS PART OF THE APPENDICES OF THE REVISED DRAFT EIR/S

I. WHAT'S NEW IN THE REVISED DRAFT

A 2-5 page summary of the changes which have been made to the Program since the first draft document was released in May.

II. TABLE OF CONTENTS

III. LIST OF FIGURES

IV. LIST OF APPENDICES

V. GLOSSARY

VI. ACRONYMS

VII. MISSION OF PROGRAM

VIII. PURPOSE AND NEED STATEMENT (mission)

IX. GOALS AND OBJECTIVES OF PROGRAM ("vision")

X. INTRODUCTION/BACKGROUND

2-5 pages of background on the program, how it evolved from the concepts originally included in the water quality program. Development of initial strategy included in the first Draft EIR/S, creation of the interagency working team, creation of the BDAC workgroup and the work efforts which were involved in these two groups. A summary of the direction and suggestions we have received from the many opportunities we have had for public input (describe the workshops this Spring, the BDAC meeting in Redding where the focus was watershed management, the BDAC workgroup meetings, the BDAC workshops and the general sense of the comments received on the program. A separate section below will describe the actual summary of the comments and a summary of how we have responded in the revised document.

XI. GEOGRAPHIC SCOPE

Description

XII. PROGRAM DESCRIPTION

A. Program Elements

- I. Coordination / Assistance
- II Adaptive Management and Monitoring
- III. Education and Outreach
- IV. Integration/Collaboration with other CALFED Programs

Agency or Program efforts
Support for local or regional programs

V Watershed Processes and Relationships

B. Program Actions

This section describes the entire range of actions contemplated for the Watershed Program over the course of the 20 -30 year effort. Develop the Stage 1 actions in section below.

XIII- IMPLEMENTATION STRATEGY

A. Stage 1 actions

Suggested Stage I actions have been developed as part of the work effort creating a draft preferred alternative. These suggested Stage 1 actions should be considered draft only and subject to revision based on program input, BDAC workgroup recommendations, agency public comment on draft EIR/EIS; and agency and public comment on the "Developing a Draft Preferred Alternative" document.

B. Stage II actions

C. Stage III actions

D. Monitoring and Adaptive Mgt.

Baseline
Implementation
Effects

These elements need to address monitoring needed to clearly describe watershed baseline conditions; the status of CALFED Watershed Program action implementation, and the effectiveness of these actions in meeting CALFED goals and objectives. The monitoring plan should also provide program level guidance on who might conduct the monitoring elements identified.

E. Financing
