

Partial List of Funding Sources Related to Environmental Restoration

Program	Contact	Remarks
Central Valley Project Improvement Act (CVPIA)	Jim McKeivitt (USF&WS) (916) 979-2760 Pat Rivera (BOR) (916) 979-2326	Funding from CVPIA Restoration Fund, BOR E&W Account and Proposition 204. Program objectives are to restore anadromous fisheries, provide refuge water and address other CVP impacts.
Delta Pumping Plant Fish Protection Agreement (Four Pumps Agreement)	Stephani Spaar (DWR) (916) 227-7536	Annual funding from DWR for programs to offset fishery losses at SWP facilities in the Delta.
DFG Fishery Restoration (Proposition 70; Salmon Stamp)	Harvey Reading (DFG) (916) 654-6505	Programs to address salmon fishery needs in Central Valley and north coast.
Tracy Direct Fish Loss Mitigation Program	Pat Coulston (DFG) (209) 948-7800 Ron Brockman (USBR) (916) 979-2323	Funding available to reduce and offset direct fish losses associated with the operation of the Tracy Pumping Plant and Tracy Fish Collection Facility.
Proposition 204, Delta Tributaries Watershed Program	John Ladd (SWRCB) (916) 657-1016	Funding available for Delta tributary watershed rehabilitation.
Water Quality Assessment and Planning	Paul Lillebe (SWRCB) (916) 657-1031 Cheryl McGovern (USEPA) (415) 744-2013	Funding from CWA Section 205/604 for water quality planning projects. Application and project selection is conducted by the SWRCB.
Nonpoint Source Water Pollution Control	Ken Harris (SWRCB) (916) 657-0876 Sam Ziegler (USEPA) (415) 744-1990	Funding from CWA Section 319 for implementation of nonpoint source control projects. Application and project selection is conducted by the SWRCB.
Wetlands Protection	Mary Butterwick (USEPA) (415) 744-1985	Funding for wetland protection programs, including assessment, planning and restoration.
Clean Water State Revolving Fund	Bill Campbell (SWRCB) (916) 657-1043 Juanita Licata (USDPA) (415) 744-1948	A low interest loan program established by the Clean Water Act for projects related to point and nonpoint sources of pollution. Special interest to increase use of these loans for innovative watershed projects that address nonpoint source pollution.

USEPA Funding Sources for Communities	Sam Ziegler (USEPA) (415) 744-1990	Various funding sources available from USEPA for community-based environmental projects that could support ecological/biological restoration. These include environmental education, sustainable development, pesticides stewardship and others.
U.S. Dept of Agriculture	Gary Bullard (NRCS) (916) 757-8215	Various programs covering environmental and habitat issues - wetland restoration, water quality and quantity, habitat value, subsidence, ag preservation and retirement.
California Salmon Grassroots Initiative	Greg Elliott (NFWF) (916) 484-1290	Funding available for coho salmon, steel head and spring-run chinook for on the ground activities. 1997 application deadline 7/21/97.
National Fish and Wildlife Foundation	Greg Elliott (NFWF) (916) 484-1290	Funding available for wetland, neotropical birds, other wildlife, or conservation education programs.
Wildlife Conservation Board	Scott Clemons, 801 K Street, Sacramento, CA 95814	Funding available for multispecies habitat restoration (riparian and wetlands), river parkway projects, and f & w public access projects. Write for more information.
Environmental Enhancement and Mitigation Program	Courtney Sakai (California Resources Agency) (916) 653-5656	Funding available for environmental mitigation and enhancement projects associated with modified or new public transportation facilities.
Coastal Resources Grant Program	Chris Potter (California Resources Agency) (916) 653-5656	Funding available for coastal counties and cities for coastal resources management and activities related to offshore energy development.
SF Bay Program	Richard Morat (USF&WS) (916) 979-2116	Programs focused on improving Delta estuary habitat.
US Corps of Engineers (Under Sections 1135, 206, 503, 204)	Alicia Kirchner (916) 557-6767	Programs that address impacts of Corps projects, Sacramento River watershed management, aquatic ecosystem restoration and protection, beneficial uses of dregs material.
North American Wetlands Conservation Act	Byron Kenneth Williams Ph.D. (USF&WS) (703) 358-1784	Grant funds available for wetland acquisition and restoration/creation/enhancement projects.
Partners for Wildlife	Partners for Wildlife Coordinator (916) 979-2085	Funding available in a cost-share program to enhance fish and wildlife habitat on private lands.
