Ecosystem Roundtable

Quarterly Reports

The following CALFED projects have contracts signed by mid May, and so are either submitting Quarterly Reports (Attached) or are currently completing their reports.

Completed

- 97-C01 - RD 108 Fish Screen
- 97-C02 - RD 1004 Fish Screen
- 97-C04A-Selected Fish Screens in the Upper Sacramento River (fiscal report will be revised for final submission)
- 97-C05 - Wetlands/Methyl Mercury Studies
- 97-C07 - Exotic Species in Ballast Water
- 97-C09 - Developing a Genetic Baseline for San Joaquin Salmon
- 97-C12 - Alternative Pesticide Use Reduction
- 98-C02 - Culture of Delta Smelt
- 98-C06 Water Quality Criteria for Diazanone and Chlorpyrifos
- 98-C15 - Biological Assessment for Green Sturgeon (Sacramento River Watershed)
- 99-C02 - Feasibility Study on the Mokelumne River

In Progress

- 97-C03 - Upper Sacramento River Restoration Planning
- 97-C06 - Contaminant Effects on Smelt
- 97-C08 - San Joaquin River Real Time Monitoring Program
- 97-C11 - Gravel Replacement (for salmon) at Basso Bridge
- 98- C03 - Hamilton Wetlands
- 98-C04 and 98-C05 - Land Acquisitions at Basso Bridge and Merced River Ranch
- 98-C07 - Fathead Minnow Toxicity Testing
- 98-C08 - Algal Toxicity Testing

Contracts for 1998 projects which were signed late in the quarter are listed below; we should see FY99 fourth quarter quarterly reports for these projects.

98-C01 - Twitchell Island Subsidence Study

98-C09A, C09B, and C09C - Delta Sediment Water Quality Plan (dredge reuse)

98-C10 - CMARP-Comprehensive Monitoring and Research Program

98-C11 - Adult Salmon Movement in the South Delta

Quarterly reports for CALFED projects administered through the National Fish and Wildlife Foundation are also attached in this package.
