

DEFT Status on through Delta Alternative

- Consensus on Stage 1 Habitat actions
- Scoring upstream actions
- Harvest team
- Suite of structural actions
- Operational protective measures
- DEFT evaluation scenario
- Evaluation of alternative to move towards
Recovery

Heading for Recovery

- At the end of Stage 1 will we be able to be in a position to say we are heading for recovery?
- What actions do we want to take to get in that position?

Vector Towards Recovery

- What risks do we want to take while moving towards recovery in Stage 1?
- For example: Do we want to achieve improvements in all resource areas, or increase the likelihood of recovery with a cost to water supply and possibly water quality?

Water Supply Improvements

- What is the base by which we judge incremental benefit?
 - Accord plus upstream AFRP actions (Dec 1994)
 - Accord plus upstream and in-Delta AFRP actions.
