

Memorandum

Date: May 11, 1999
To: Federal/State Small Group
From: Lester A. Snow
Executive Director
Subject: Revised CALFED Program Decision Description

We have updated the CALFED Program Decision to reflect the input received at the May 4, 1999 Small Group meeting and subsequent discussions with Alf Brandt. With these changes, the description becomes complete and will be inserted into the Draft Programmatic EIS/EIR impact analysis document.

Changes were made in three areas: the information about the Environmental Water Account has been expanded in the 4th paragraph on page 2; information regarding the Cross Channel has been struck at the 7th bullet on page 9. "Determination of operating criteria for the Delta Cross Channel" was deleted because the effort is noted in the subsequent bullet; and the three paragraphs describing the Multi-Species Conservation Strategy (page 14) were cut back to one.
