

We can't Scope Without you!

IF you use water, or if you care about California's environment, plan to attend a CALFED Bay-Delta Program public scoping meeting on

**Thursday, April 18th, from 7 pm to 9 pm,
at the Red Lion Inn,
3100 Camino Del Rio Ct., in Bakersfield.**

The CALFED Bay-Delta Program is bringing Californians together to find a long-term solution to problems in San Francisco Bay/Sacramento-San Joaquin River Delta (the Bay-Delta). The Bay-Delta provides drinking water for two-thirds of the state and irrigates more than 4 million acres of farmland. Equally important, it is the west coast's largest estuary, rich in unique natural resources. If you are a Californian with a job, a kitchen sink, a cotton field, or an affection for the outdoors, chances are the Bay-Delta plays a big part in your life, even if you've never been within 100 miles of it.

The CALFED Bay-Delta Program has developed several alternative solutions to the many, complex problems plaguing the Bay-Delta. Before these solutions enter the environmental review phase, we need your advice. Do you think the solutions will work? What should the environmental review address? Come to the relaxed, informative scoping meeting and help us answer these questions.
