Hearing tonight on water report

Delta residents get a chance to tell government officials how to solve some of the state's toughest water problems at 6 p.m. today in the Jean Harvie Center, 14273 River Road.

The meeting is part of a 75-day public comment period since the release of a draft report by CalFed, a team of federal and state water policy-makers who are trying to find better ways to draw water from the Sacramento-San Joaquin Delta. CalFed's work includes plans to stabilize Delta levees.

An information session begins at 6 p.m. and the public hearing at 7 p.m.
