2. **The "Restoration Programs Tracking System Web Site" is one step closer to reality!**

A Coalition priority for CALFED has been to demonstrate effective program management and responsible fiscal management for all Federal restoration activities. To that end, the Bureau of Reclamation has just issued its "scope of work" for the "Restoration Programs Tracking System" Web site.

Attached are the details, including project objectives, purpose, target audience, Web site sections, action plan, and budget, for the proposed site.
