

Memorandum

Date : May 12, 1995

To : CALFED Board

From : Lester A. Snow, Program Manager
CALFED Bay-Delta Program *by S*

Subject: Preliminary Work Program Activities

Attached for your review is a concept draft of phase one of our work program. This draft is intended to aid our discussion on the 18th. The overall work effort is contemplated to take place in three phases with phase one covering the period through the final scoping document. Phase two is the EIR/EIS at the program level, and phase three is the project level EIR/EIS.

These concepts will be discussed by the CALFED agencies NEPA/CEQA experts in a work session on May 16. The results of that discussion will be shared at our meeting.
