

# Memorandum

Date: January 4, 1996

To: Land Use/Flood Control/ Habitat Alternatives Development Team Members

From: Victor Pacheco *VP*

Subject: Review of Alternatives

Attached, for your review, is the initial draft of the alternative describing a minimum approach to protecting the Delta islands and system functions (SV-1). We anticipate providing you with additional alternatives for review by the close of business today. Therefore, we would appreciate receiving any comments on this alternative at your earliest possible convenience in order to incorporate those comments into subsequent materials.

We apologize for the short review time, however, our original deadline (Monday January 8, 1996) for submittal of all our alternatives has been moved up to noon on January 5, 1996. If you have any questions, please give me or Michael Norris a call at 657-2666.
