

# CALFED BAY-DELTA PROGRAM

## Office Memorandum

**Date:** January 19, 1996  
**To:** Program Team  
**From:** Steve Yaeger   
Victor Pacheco  
**Subject:** Review of Draft Alternatives

---

We are asking each member of the Program Team be responsible for performing an in-depth review of the alternatives developed by other alternative teams (See attached List) and provide comments to Ron Ott prior to the Program Team meeting this coming Monday. This will ensure each alternative is reviewed by at least one Program Team member prior to distribution to the Program Coordination Team on Monday afternoon. Please provide revised text as appropriate to facilitate any necessary changes.

In addition, please review the two alternatives tentatively selected as examples for the upcoming BDAC meeting. These examples are #1 "Reduce Exports with New Supplies" and #12 "Dual Transfer Facility". If you believe other alternatives may be more appropriate, please plan to discuss this at the Program Team meeting on Monday.

Your review of remaining alternatives, as time allows, would also be appreciated. Please consider and comment on the types of actions, alternatives, or ideas are not represented in our collection of alternatives.

If you have any questions, please see me by COB today. You can reach Ron Ott at his office phone number is (916) 920-0212 Ext. 251. In order to expedite with revisions to the alternatives, comments can be sent to Ron Ott at CH2M HILL via FAX at (916) 920-8463 prior to 5:00 pm this Saturday.

cc: Ron Ott
