

April 5, 1996

Douglas McGeoghehan
President, California Fish and Game Commission
1416 Ninth Street, Room 1304
Sacramento, CA 95814

Dear President McGeoghehan:

I am writing with reference to the proposed striped bass policy under consideration at your meeting of April 5, 1996 in Sacramento. The CALFED Bay-Delta Program has reviewed the proposed policy and finds that it is consistent with a successful ecosystem restoration program. This striped bass policy will be an important component of the recovery of the Bay-Delta System.

We look forward to working with the Commission and the Department of Fish and Game to ensure restoration of a healthy ecosystem.

Sincerely,

Lester A. Snow
Executive Director
