Dear Mr. Mott:

Thank you for your letter of March 6, 1996 with your suggestions regarding the need for objective measures and costs to permit assessing the relative merits of the alternatives. Staff is reviewing your suggestions for how to reorganize the alternatives and their elements.

Regarding your comment for the need for further cost details--we agree. Staff is currently working on estimates for each alternative and this information will be discussed as we move ahead in the process.

Again, we appreciate your interest in the CALFED Bay-Delta Program and look forward to your continued involvement in this important effort. If you have further questions or comments, please contact us.

Sincerely,

Lester A. Snow
Executive Director
