

Memorandum

Date: July 9, 1996

To: Agency Ecosystem Restoration Team

From: Dick Daniel

Subject: Meeting scheduled for July 18, 1996

In my haste to get the meeting material out early, I made two mistakes. First, I did not include the attachments with the fax; and second, on page two I asked you to review the attachments and indicated that we may not get to them on the 19th. The meeting is on the 18th of July and I apologize for any confusion.

I'll take advantage of this second mailing to pass along some work Frank Wernette did to identify habitat restoration targets for keystone species in the Delta. His suggestions for habitat prescriptions are just the kind of guidelines we need for each of the special status species. Please look over Frank's work and bring any additions you may have to our meeting on the 18th.
