Subject: CALFED report "The Ecosystem Restoration Plan"

Dear Mr. Snow:

Since the meeting which was held in Anderson on September 30, 1997, I have been inundated with calls and concerns from my constituents, who until that time were unaware of the CALFED process in the general and the "Ecosystem Restoration Plan" specifically. Since October 14. was the last day for public comment, it was nearly impossible to review and discuss this report, given that most of them had not seen a copy of the document.

I am adding my support to the letters and petitions which you have already received requesting a 90-day extension of the public comment period. In addition I request that you hold additional public workshops and forums, detailing the entire CALFED process, specifically in the Shasta County area. This County has as much or more to lose in the process than any area, and needs to be involved and heard in the process.

Thank you for your consideration in this matter.

Sincerely,

A handwritten signature in cursive script, appearing to read "Patricia A. Clarke".
