# CALFED BAY-DELTA PROGRAM

## Office Memorandum

**Date:** October 23, 1997  
**To:** Program Managers, CALFED Common Programs  
**From:** Stein Buer  
**Subject:** Common Program Costs

---

Dave Samson is assembling the Alternative cost estimates to be included in the Draft PEIR/EIS. An example of the proposed format for displaying each of the Alternatives is attached. The Common Program cost components will be required for their inclusion in each CALFED Alternative. As such, I am requesting that each of you provide Dave with the total capital cost and total annual cost, and a description of "action items", for each of your respective programs, for each Alternative. Dave will need this data by October 31st. It would be extremely helpful if the data were summarized in an excel spreadsheet in a format similar to the attached Alternative Cost Summary,

If you have any questions, please contact Dave at 353-9715, or email [samson@water.ca.gov](mailto:samson@water.ca.gov).
