Re: CAL-FED Report: "The Ecosystem Restoration Plan"

Dear Mr. Snow:

We, the Colusa County Board of Supervisors find the above referenced "Plan" disturbing, since it appears to lack significant input from those most affected.

Therefore, we are requesting an extension of the response deadline for an additional 90 days. As an affected agency, we need sufficient time for staff and policy review of the report. It will be necessary to compare the recommendations of your agency against our local policies and goals. We are also requesting that additional public workshops and forums be held as well.

We anticipate a swift response to our request and information regarding the additional hearing dates.

Thank you in advance for attending to this matter.

Sincerely,

*William R Waite*

William R. Waite, Chairman  
Colusa County Board of Supervisors
