Subject: Relationship of CVPIA Provisions to CALFED Program Elements

In response to your earlier request, we have performed a cursory evaluation of the match between CALFED Program elements and provisions of CVPIA (especially those which require State cost sharing). This analysis is presented on the two attached pages; the first page identifies the sections of CVPIA which directly tie to each CALFED Program element and indicate when special arrangements will need to be made to cost share that element; the second page summarizes the same information by CVPIA provision and presents the percentage cost share in the legislation.

I hope that this cursory analysis is sufficient for your purposes at this juncture.
