Dear Mr. O'Brien:

On behalf of the CALFED Bay-Delta Program I would like to thank you for your participation in the Restoration Coordination Program. I appreciate all of your efforts to finalize a contract for your project *Martinez Regional Shoreline Restoration Plan*. It is unfortunate that the most recent Scope of Services for the project differed significantly from the scope of work identified in the original proposal. All proposals are reviewed and approved based on the scope of work as written in the original proposal; when the scope is changed significantly that proposal must go through the review and approval process again in order to be fair to all potential project proponents who submit proposals to CALFED. CALFED is working at finalizing all of the contracts as quickly as possible, in order to achieve our goals of our early ecosystem restoration implementation.

I would encourage you to submit the additional restoration projects described in your letter for consideration in future Proposal Solicitations for Ecosystem Restoration Projects and Programs. I look forward to working with you in the future as additional projects are approved. Please call me at (916) 657-2666 if you have any questions.

Sincerely,

Wendy Halverson Martin  
Restoration Coordinator
