April 26, 1999

Margit Aramburu, Executive Director  
Delta Protection Commission  
P. O. Box 530  
Walnut Grove, CA 95690

Dear Margit:

Thank you for your letter of April 1, 1999 containing Delta Protection Commission comments on the Revised Phase II Report. Your continuing interest and constructive involvement in the CALFED process is very helpful to us and has resulted in valuable refinement of our Program.

Many of your April 1 comments, while focused on language in the Phase II Report, are really comments on the CALFED Program plans. We are now completing revisions of the Program plans and the draft programmatic EIS/EIR in anticipation of a June 1999 release of revised draft documents. Accordingly, I have forwarded your comments to the appropriate CALFED Program managers. There may be time to reflect some of your comments in the revised draft materials before they go to press in a few weeks. In other cases there may not be time to address your concerns before revised materials are released, so I encourage you to review the forthcoming revised draft materials with your April 1 comments in mind.

Once again, Margit, thank you for your constructive involvement in the Program.

Sincerely,

Lester A. Snow  
Executive Director

Enclosure
