TO: INTERESTED PARTIES

Attached for your review is a draft resolution that will be considered for adoption by The Reclamation Board at its June 18, 1999 meeting in Sacramento. The proposed resolution relates to the revegetation and reforestation of floodplains and floodways under permit jurisdiction of the Board.

Many ecosystem restoration projects have been established adjacent to the Sacramento River, and additional projects funded by CALFED, U.S. Fish and Wildlife Service, Department of Fish and Game/Wildlife Conservation Board, and others are proposed for implementation. While the Board supports these restoration efforts, they believe it critical that the restoration be compatible with other public values such as protecting the public from flood damages.

We are currently seeking your comments on this draft resolution. Please submit your comments to the Board by mail or e-mail to prabbon@water.ca.gov or facsimile to (916) 653-5805.

If you have any questions, please contact Ricardo Pineda, Chief Engineer for The Reclamation Board, at (916) 653-5440.

Sincerely,

A handwritten signature in cursive script that reads "Peter D. Rabbon".
