San Diego, CA 92103-5718

Dear Ms. Stapleton:

Thank you for agreeing to participate on the panel entitled "Southern California Water Management Issues" scheduled from 2:30 pm to 3:30 pm at the Bay-Delta Advisory Council (BDAC) meeting on July 9, 1999 to be held at the Town & Country Hotel and Convention Center in San Diego. BDAC, a thirty-three member federally-chartered advisory committee, provides policy advice to the CALFED agencies on related Bay-Delta issues. Your insights into water related Southern California issues will help further BDAC's understanding of these matters.

The purpose of the panel is to discuss with BDAC Colorado River and Southern California water quality and conservation issues, and how they relate to the San Francisco Bay-Delta.

We are looking forward to hearing from Ed Kirmura and a representative from the bio-technology industry, in addition to yourself. We are structuring the panel agenda item so that there will be ample time for interchange between the panelists and BDAC members. We have set aside 25 minutes for initial comments from the panel and 35 minutes for questions and answers. Therefore, we ask that you limit your initial comments to five to seven minutes. In addition, we will have an overhead projector and screens available for your use, if you wish. A copy of a preliminary agenda for the entire BDAC meeting is enclosed, in the event you would like to observe the proceedings.

---
