

Memorandum

Date: August 2, 1999

To: Mike Spear, Manager
California/Nevada Operations Office
U.S. Fish and Wildlife Service

From: Lester A. Snow
Executive Director

Subject: CALFED Co-lead Agencies for Lower San Joaquin River/South Delta ERP Actions

CALFED has placed a high priority on implementation of Stage 1 actions in the Lower San Joaquin River and South Delta Region. This bundle of actions has been the focus of discussions at recent meetings of the CALFED Federal-State Small Group and the CALFED Policy Group.

The description of CALFED ecosystem restoration actions reviewed by the Small Group includes your agency as a federal co-lead for ecosystem and floodplain restoration. Other proposed lead agencies are the National Marine Fisheries Service and the Department of Fish and Game. I am requesting a formal determination with respect to the proposed role of federal co-lead for your agency for the purpose of initiating the CEQA/NEPA project planning process.

We are drafting an ambitious schedule for proceeding with ecosystem and floodplain restoration in the Lower San Joaquin River and South Delta Region. It is our hope to file a Notice of Intent/Notice of Preparation for the project by the end of August, and begin public scoping sessions in early October. Thus, it is imperative to expeditiously resolve the issue of which agencies shall serve as lead state and federal agencies for project planning purposes. I will place this item on the agenda for our Small Group meeting on August 3, 1999 with the goal of confirming project lead agencies at that time.

Staff level coordination should also begin immediately. Please advise the Small Group as to whom you would select from your staff to be designated as USFWS staff coordinator for CALFED ecosystem and floodplain restoration in the Lower San Joaquin River and South Delta Region.
