**Conditions: Panel would only recommend Tasks 1,2, and 5 be funded (\$68,415)--
Tasks 3 and 4 should be resubmitted after more details are worked out --**

**Comments: This is the only project to serve San Joaquin-- panel would
recommend Integration Panel consider that in scoring criteria -- This is a good
multi-dimensional project and has good links to CALFED objectives Have
advisory group in place -- has potential for reaching high number of students-- only
low score was for cost sharing which could be developed to assist with Tasks 3 and 4**
