CUWA Needs for Stage Implementation of CALFED

Dear Lester:

As mentioned in my letter to you of September 22, 1999 regarding the Phase II Report, CUWA has prepared the attached list of our needs regarding the staged implementation process and issues which must be addressed in the final Programmatic EIS/EIR and Record of Decision. I hope to discuss the content of this document with you at a meeting with other urban representatives October 1, 1999 but I imagine that time will not allow a thorough discussion of the issues it covers. If that's the case, perhaps a subsequent discussion can be arranged.

I look forward to seeing you on the 1st.

Sincerely,

Byron M. Buck
Executive Director
