Governor Gray Davis
State Capitol
Sacramento, CA 95814

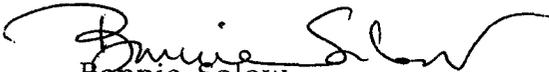

Dear Governor Davis,

I voted for you in the last election, hopeful that you would make a positive impact on the extraordinary ecology of our beloved state. I am particularly interested in seeing that our rivers, bays and sources of drinking water are protected. I urge you to support the "CALFED Bay/Delta " program, which intelligently insures protection and use for California's water resource for the next 50 years. Quite a legacy for you to leave behind to future generations.

Please insure that the CALFED program invests in water efficiency for a least seven years before considering new dams and reservoirs; restores our rivers, bays and fisheries by providing adequate fresh water and caring for the land around our rivers; improves water quality for people and wildlife by enforcing pollution limits; and stops making taxpayers absorb the costs for studies of new dams and reservoirs that flood valuable habitat and remove needed water from our rivers.

Thanks you for listening. I look forward to witnessing your supportive actions in this regards.

Sincerely,

Bonnie Solow
