WATER RESOURCES
DIRECTOR TOM HANNIGAN
1416 NINTH STREET
SACRAMENTO, CA 95814

JULY 9, 1999

Dear Tom Hannigan,

You can help shape the future of California's RIVERS, BAYS, and DRINKING WATER! You can make a difference by charting a smarter course for California through the "CALFED BAY/DELTA" program- which is a plan for how to protect and use California's water resources for the next 50 years. With your help we can choose to: improve water quality; protect our watersheds and fisheries; and invest in water conservation to make our communities self-reliant. A smarter course will guarantee healthy rivers, abundant wildlife, and ample clean water for our families, farms, and businesses.

Director Tom Hannigan, you can lead California toward a smarter future- and away from the old ways of building massive new dams and canals that harm our environment. Thank you for contributing to a sustainable water future for California!

Sincerely,

Kimberly A. Stalley
