GLENDALE - LA CRESCENTA ADVOCATES

3924 EL Caminito St.
La Crescenta, CA 91214
(818) 248-1793

July 1, 1999

Governor Gray Davis
First Floor, State Capitol
Sacramento CA, 95814

Dear Governor:

In order to improve and ensure our state's water quality and protect our watersheds and fisheries, among other things, it is essential that you support the CALFED program.

Potable water is an absolute necessity for life of all kinds and should not be made into a political football or become a handmaiden of developers and agribusiness interests.

Further, it has been fairly well established that dams do more damage than good and must become a last resort, if a consideration at all!

Support CALFED! Our water quality and efficiency will improve, our rivers and fisheries will be cleaner and more productive and we taxpayers will not have to pick up the tab for new dam and reservoir studies which, in the end will be unproductive, if not outright destructive.

Please advise me of your view from the top. Thank you.

Sincerely,

A handwritten signature in cursive script that reads "Richard Seeley".

Richard Seeley
