Dear Sir/Madam:

I am writing to request financial support for the Sacramento Valley Section of Society of Women Engineers (SWE). Our section supports the mission and goals of our national non-profit educational organization dedicated to informing young women about careers in science and engineering.

The Sacramento Valley section has two important programs to further this goal:

**Speaker's Bureau**

Many of our members share their career experiences as women engineers at local elementary, middle and high schools. In the classroom, we demonstrate simple engineering concepts or show videos. In addition, we participate in career fairs and conduct hands-on activities to stimulate interest in science and math. We hope to purchase an attractive SWE banner and tabletop display board for these events.

**Collegiate Scholarships**

We award several scholarships each year to outstanding women at three local universities: California State University, Sacramento, University of California, Davis and the University of Pacific. The amount of the scholarship is only \$250, and we would like to increase the award in future years.

We would appreciate your financial support to continue our efforts in motivating young girls as well as supporting our university students. Your donation is tax deductible and our tax identification number is 22-323-1195.

As a token of our appreciation, we will publish your company name and your contribution amount in our upcoming newsletters. If I can answer any questions or assist your company with employment advertising, please call me at (916) 262-1423.

Sincerely yours,

Helena Sullivan  
Fundraising Chair
