Water Resources Director Tom Hannigan  
1416 Ninth Street  
Sacramento, CA 95814

Dear Director Hannigan,

I have long enjoyed visiting our California rivers for fishing, kayaking and rafting. I am now revisiting those rivers with my young daughter and introducing her to the joys of a river, wilderness experience. So that my daughter and future generations will have the opportunity to continue to enjoy California's rivers and streams I urge you to ensure that the CALFED program protects them.

To that end I urge you to make sure that the program:

- (1) Invests in water efficiency instead of considering new dams and/or reservoirs.
- (2) Restores our rivers, bays and fisheries by providing adequate fresh water and caring for the land around our rivers.
- (3) Improves water quality for people and wildlife by enforcing pollution limits.
- (4) Stops making taxpayers pick up the tab for studies of new dams and reservoirs that flood valuable habitat and remove needed water from our rivers.

You have the opportunity to make a great difference in the future of California's water ways and supplies. I hope that you will consider my suggestions.

Very truly yours,

*Marcus Libkind*
