

T. Hannigan

25 July 1999

Governor Gray Davis
State Capitol
Sacramento, Ca. 95814

Dear Governor Davis:

Please, please support the CALFED Bay Delta program. Voters and wildlife share habitats that builders covet. Yet, our needs far exceed in pure vote power the votes of developers.

The Carmel Valley River in Monterey County is on the endangered river list. The Big Sur River, which flows past 1000' of my land is scoured; water is transferred to an adjoining watershed; catch and release steel head only and a red-legged frog I've never seen in my 22 years here.

Developers will move on, agribusiness will move to Mexico, but your voters will still support you when we have clean water and rivers. Thanks for your good work.

Most sincerely,

Lorri
